## Introducing Molten's BG5000 basketball

featuring improved controllability with an authentic look and feel of a genuine leather

Molten Corporation (Headquarters: Nishi-ku, Hiroshima City, Japan; President and CEO: Kiyoo Tamiaki), a manufacturer of competition quality sports balls and equipment, has announced that it will release the new BG5000 basketball at select markets beginning April, 2019.

BG5000 offers improved controllability with an authentic look and feel of a genuine leather. This was realized by changing the surface finish, printing method, as well as improving the internal structure of the ball. The BG5000 leather basketball can be used with an ideal grip when brand new both in practice and games. The ball continues to use Molten's signature 12-panel design.

This BG5000 will be used as the official basketball in all FIBA international basketball games to be held from August 2019.

Molten will continue to develop and supply basketball products of outstanding function and design to players of all level, and work to fulfill the brand promise of "For the real game."

## ■Product Features

### 1) Improved control

- **Less Slippery**

New surface texture helps give an ideal grip even in contact with sweat or moisture. Branded logos also give a tackier grip than transfer printing method used in prior model. Printed proportion was reduced by 25% which also contributed to giving a better grip.\*

- **Improved grip performance**

Foam concentration increased by 35% and EVA foam backing layer has been newly applied, making the ball softer and easier to control.\* \*Compared to Molten's previous balls

### 2) Authentic Texture

BG5000 takes full advantage of the natural leather properties to ensure better texture. All lettering design on the BG5000 is branded into the ball to offer an authentic look to the natural leather basketball.
